JUDICIAL DEPARTMENT

First Priority

Promote Judicial Specialisation and Ensure Quality of Court Decisions and Public Prosecution Operations

This priority aims to support and promote the functions of relevant courts and prosecutor's offices, and in the meantime, to keep pace with new local legislations, which in turn positively impact the quality and consistency of judicial decisions and prosecutorial actions. Additionally, the priority shoulders the aspirations of ADJD and the Emirate of Abu Dhabi in building local and international confidence in the Emirate's judicial system, which should ultimately be reflected in the growth and investment drive.

Second Priority

Ensure Sustainability and Business Continuity Supported by Solid Future Forecasting

The sustainability of operations and the continuity of activities are amongst the most important government priorities, given the changes in the region. The success of these operations also depends on their efficiency, from inputs to final results. Naturally, ADJD is mindful of the importance of sustainability and continuity of judicial procedures and processes. ADJD is also committed to serve the public all across the Emirate, to setting forward-looking targets, and to digital comprehensiveness, which allows for more options for court users and applicants to access the services provided by ADJD.

STRATEGIC PRIORITIES

- 1 First Priority**
Promote Judicial Specialisation and Ensure Quality of Court Decisions and Public Prosecution Operations.
- 2 Second Priority**
Ensure Sustainability and Business Continuity Supported by Solid Future Forecasting.

JUDICIAL DEPARTMENT

STRATEGIC PRIORITIES

Third Priority

Maintain Court Users' Happiness by Providing Smart and Innovative Legal and Judicial Services.

3

Fourth Priority

Strengthen ADJD's Participation and Presence in the International Judicial Arena.

4

Third Priority

Maintain Court Users' Happiness by Providing Smart and Innovative Legal and Judicial Services

Ensuring court users' happiness is one of the Emirate's top priorities. In its programmes, plans and projects, ADJD has always focused on providing services that are comparable to the best international counterparts in the judiciary sector. ADJD targets a satisfying experience for court users through technological innovations and smart and fast services enhanced by artificial intelligence. Service channels accessibility will be enhanced at service centers and via any portable smart device.

Fourth Priority

Strengthen ADJD's Participation and Presence in the International Judicial Arena

ADJD plays an important role with its local partners in maintaining the security and stability of society, whether in terms of awareness, legislation or deterrence of crimes that affect the social structure in the Emirate of Abu Dhabi. ADJD pays particular attention to this priority given its significant impact on the economic and social environment of the Emirate. The Department is also mindful of working with its international partners in examining the best judicial practices and adapting them to the local judicial system with the aim of applying them to strengthen its presence in the global judicial arena.
